# GROHE BAULINES

Sharing the same ideals as the influential Bauhaus design movement – that form and function should work together – the Baulines range from GROHE fuses bold design and high-quality materials with the latest German manufacturing techniques at competitive price points.

GROHE faucet and shower collections fuse high-end design with the latest technology and advanced manufacturing techniques. A wide choice of designs ensures compatibility with all styles of interior and all types of basin.

To help you choose the fittings best suited to your preferred interior style, GROHE has identified three style segments: Cosmopolitan, Contemporary and Authentic, each with a distinct look and feel. From the geometric lines of BauEdge to the softer aesthetic of BauClassic, there's a collection to meet your requirements and enhance your bathroom.

Each collection features a range of faucets for the basin, bath and bidet and is completed by a choice of shower solutions. This comprehensive offering ensures style continuity throughout the bathroom, enabling you to create a space that is aesthetically pleasing and comfortable to use.

# GROHE ENJOY QUALITY.

## GERMANY'S NO. 1 BRAND

For over seventy years GROHE has been manufacturing superior quality faucets and sanitary fittings. Our products have won numerous design awards and are acknowledged internationally for their reliability, durability and performance.

GROHE is Germany's premier sanitary fittings brand and a world-leader in the bathroom market. We carefully select the finest materials and manufacture to the highest German standards to deliver the best European designs to a global audience.

Ongoing investment in research and development enables us to actualize world-leading technologies for the bathroom industry. Our products are designed to last a lifetime and are subjected to rigorous internal and external tests to guarantee their longevity. Our internal life-testing center surpasses industry standards. All products are tested to ensure they exceed the expectations of our customers and outperform our competitors.

Quality, technology and design are central to everything we do. We take pride in the performance of our products and offer a 10-year guarantee on all functional parts. This guarantee demonstrates our commitment to delivering a lifetime of unique user experiences to our customers.

Since the company was founded in 1936, GROHE has opened 26 subsidiaries across the world, invested in six factories and sold over 300 million faucets. This global network allows us to respond to the specific needs of each country to create market-relevant products that fuse advanced German manufacturing techniques with user-centric designs.

# GROHE HISTORY OF INNOVATION.

## 1936

Friedrich Grohe establishes business in Hemer, Germany (1)

## 1948

Launch of Atlanta a classic of German faucet manufacturing (2)

## 1956

Launch of GROHE thermostats Introduction of the first thermostat for the residential market (3)

## 1961

Opening of first foreign subsidiary, GROHE France

## 1965

## 1983

Launch of Eurodisc, the first GROHE faucet with a ceramic cartridge (6)

## 1997

Opening of the GROHE Design Center (7)

## 2001

Launch of GROHE Atrio faucet collection (8)

## 2001

Opening of GROHE China

## 2005

Launch of GROHE Rainshower® (9)

## 2006

Opening of GROHE India

## 2008

Launch of GROHE Ondus® collection of digital showers and faucets (10)

# PEOPLE WHO CHANGE THE WORLD THROUGH DESIGN

In June 2011, it was announced that Paul Flowers and the GROHE Design Team had been selected to receive the highest accolade in the field of product design – the red dot 'design team of the year' 2011. Recognised globally as a mark of distinction, GROHE is the first company in the sanitary industry to be honoured with the award since its introduction in 1988.

The award is presented annually to "international design teams which continuously produce innovative work." And with the list of previous recipients reading like a veritable who's who in the world of design, GROHE is in good company. Apple, Bose, Mercedes-Benz, Siemens and Sony are just a few of the big names to have won the award.

Since his appointment in 2005, Paul Flowers has led the GROHE in-house design team to phenomenal success. Rather than outsourcing to 'celebrity' designers, we have chosen to invest in creating a world-class design team of our own – an international mix of industry specialists whose understanding of the market is second to none.

The presentation of a red dot 'best of the best' award for GROHE Ondus® in 2007 was the first hint to the industry that design was now a fundamental brand pillar, in addition to quality, technology and sustainability. The total red dot award count now stands at an impressive 15 – including three further 'best of the best' awards for GROHE Ondus® Digitecture (2009), the Rainshower® Icon hand shower (2010) and the new Digital Controller (2011).

This commitment to producing the most relevant and inspiring designs in the sanitary industry has also resulted in GROHE advancing 104 places in the annual iF company ranking – the biggest gain in this classification, while awards from the USA, UK, China and Japan illustrate the international appeal of our portfolio.

But perhaps one of the most significant shifts to have occurred in the last five years is the way in which creativity has been used not only to develop products that add value, but also as a catalyst to change the entire culture of the company.

*"For many years the company's top management has demonstrated its commitment to excellent design and provided Paul Flowers with the support he needs to come up with innovative, surprising and aesthetic solutions and to bring outstanding products to the market time and again."*

*Prof. Dr. Peter Zec, CEO "of the red dot design award"*

# GROW OLD TOGETHER. ENJOY QUALITY

At GROHE's life testing laboratories in the Black Forest, our products are put through their paces and shown no mercy. Here, our fittings, thermostats and all the components that go with them have to endure the simulated effects of 20 years' daily use – with especially hard water. That we outperform our own as well as international quality standards in the process pays dividends – and it shows. GROHE quality goes well beyond an article's normal life cycle and, should a certain product be discontinued, replacement parts remain available for a period of ten years.

Also in independent tests overseen by rigorous juries, our fittings and thermostats sparkle. In a durability test conducted by German testing and inspection services provider TÜV SÜD, GROHE's Eurodisc won the day against nine other prestigious competitors. Thanks to GROHE SilkMove® technology that ensures incomparably smooth and easy operation in all of our single lever mixers.

In a survey by LGA Qualitest GmbH, our Grohtherm 3000, 2000 and 1000 thermostats each took first place among 17 thermostats from European manufacturers. Thanks to GROHE TurboStat® and GROHE CoolTouch®, our Grohtherm 3000 even came out overall winner with top scores in four categories. And since we ourselves are pretty proud of our achievement, we'd also like to mention that the GROHE plant at Hemer, Germany, was among the winners of the "Die beste Fabrik" ("Best Factory") competition organised by leading business magazine WirtschaftsWoche – for production and logistics, for customer focus and innovation.

The GROHE plant in Hemer emerged as one of the winners of the "Die beste Fabrik" ("Best Factory") competition organized by leading business magazine WirtschaftsWoche. A high-caliber jury composed of scientists and experts evaluated all processes from the production floor to the supply chain, with the GROHE factory scoring excellent results particularly in terms of customer orientation and innovation.

The GROHE factory in Hemer, was recently awarded Top Factory status (Die Beste Fabrik) in a competition organized by German business publication WirtschaftsWoche.

# GROHE COSMOPOLITAN STYLE

Influenced by Minimalism and modern architecture, the Cosmopolitan bathroom is a meticulous balance of design and functionality. Faucets and fittings pay homage to geometric shapes and feature the latest advanced technology. Large format tiles in shades of grey continue the architectural mood, creating a backdrop for capacious walk-in shower areas. Concealed bathroom fittings, where only the essential elements are on display, are key to realizing a space that is Cosmopolitan in its design and enjoyable to use.

# GROHE BAULOOP AND BAUEDGE

Sharing the same ideals as the influential Bauhaus design movement – that form and function should work together – BauLoop and BauEdge fuse bold design and high-quality materials with the latest German manufacturing techniques. Both collections offer a range of faucet and shower solutions designed to enhance the latest Cosmopolitan bathroom styles. Extra-high spout basin mixers complement the current trend for freestanding vessel basins, while the eye-catching design of the shower system unites a hand shower and a head shower for an enhanced showering experience.

# GROHE BAULoop

Designed to enhance the purity modern architecture, BauLoop brings lightness to its surroundings through its striking loop-shaped lever handle and cylindrical body. Featuring the signature GROHE design elements, the collection carries its minimalist design ethos over a number of draw-off points and includes a faucet for vessel basins.

# GROHE CONTEMPORARY STYLE

Contemporary-style design unites clean looks and practical features to create an inviting bathroom perfect for families. Faucet and shower designs in sparkling chrome feature softer lines and easy-to-use features which harmonize with a neutral palette of cream, beige and white to create a welcoming environment. The result is a functional and comfortable space that is designed to withstand passing trends and last a lifetime.

# GROHE BAUCURVE AND BAUFLOW

Baulines faucet collections are the perfect balance of contemporary design and German engineering – a precise mix of form and function that ensures years of carefree use. The dynamic, eye-catching profiles of BauFlow and BauCurve will visually enhance your bathroom with their contemporary appeal, while bringing a host of practical and user-friendly features to the space. Both collections offer a complete range of products across all draw-off points and include a choice of showering solutions.

# GROHE BAUCURVE

Sweeping lines and a softer aesthetic are key to creating a comfortable and contemporary bathing space. The dynamic design of BauCurve entices interaction through the confident execution of its fin-shaped lever handle. Arcing towards the user, it gives effortless control over the water flow and temperature ensuring perfect delivery for years to come.

# GROHE BAUFLOW

The flowing transition from spout to body to lever brings movement and vitality to BauFlow. Unfaltering in its execution, this transition unites these three components in a refreshing way. As with all GROHE single-lever mixers, the wide operating angle of the lever handle is perfectly engineered for optimal user comfort across the collection of basin, bath and bidet faucets and shower mixers.

# GROHE EUROECO

Featuring modern and stylish designs New Euroeco offer thoroughly convincing solutions for contemporary washroom projects. These faucets are at the top of their game in terms of hygiene, economy, safety and longevity, which makes them the obvious choice for washroom operators seeking to balance perfect functionality with stylish looks. The signature element in the design of New Euroeco is the keyhole shape of the spout which is also reflected in the small temperature control lever mounted at its base. The low-profile push button blends smoothly into the overall look of this faucet which is flattered by its flowing transitions. A wide range of models is available to meet any installation requirement - from deck-mounted and wall mounted basin mixers to concealed and exposed shower fittings.

# GROHE AUTHENTIC STYLE

Inspired by classical architectural details and traditional interiors, Authentic-style faucets and showers combine the design aesthetics of the past with up-to-the-minute technology. Developed to enhance period-style sanitary-ware and baths, decorative accents create a refined atmosphere when paired with rich colours and luxurious finishes. Three-hole basin faucets are the perfect choice for an Authentic bathroom – traditional in style yet comfortable and convenient to use thanks to the latest German manufacturing techniques.

Refined and authentic, the BauClassic faucet collection effortlessly blends a traditional aesthetic with 21st century engineering. Fluted detailing at the base of the faucet body and the spout brings an air of elegance to the design and is repeated at the end of the slender lever handle. The collection includes a three-hole basin mixer to ensure a harmonious match with period-style basins.

# BAULINES SHOWER SOLUTIONS

From mixing the water to delivering it to the showerhead, investing in quality shower fittings will ensure your morning shower is an enjoyable and exhilarating experience.

## Shower faucets

A shower faucet (mixer faucet) mixes the hot and cold water. Two styles of mixer faucet are available: concealed (built into the wall) or exposed. If you have more than one water outlet (e.g. a hand shower and a head shower, or a hand shower and a bath spout) you will need to choose a mixer with a diverter valve – this allows you to divert the water between the two outlets.

## Hand showers

Hand showers in the Baulines collections feature three spray patterns: Rain, Jet and Massage. You will require a shower hose and either a shower rail or a shower holder to attach the shower to the wall. A shower rail is the preferred choice if the hand shower is your only shower as it lets you adjust the height of the showerhead.

## Head showers

Baulines head showers offer the same choice of spray patterns as our hand showers and come complete with a shower arm. They are designed for use with a concealed shower faucet.

## Baulines shower system

Combining a hand shower and a head shower the Baulines shower system is stylish, easy to install and ideal if you want to replace an existing shower. The design of the system means that the shower brackets (which hold the shower rail) can be positioned where the old brackets were. The rail is then simply clipped into place.

Rain spray

A rich spray pattern with many soft individual drops.

Jet spray

A vigorous spray pattern to stimulate the skin.

Massage spray

A pulsating spray pattern for a stimulating massage.

# GROHE BAU KITCHEN

Sharing the same ideals as the influential Bauhaus design movement – that form and function should work together – the Baulines range from GROHE fuses bold design and high-quality materials with the latest German manufacturing techniques at competitive price points.

GROHE treats the kitchen with the respect it deserves. It's so much more than just a workspace. It's where you spend most of your time, it's the heart and soul of your home and it's often furnished to a correspondingly high standard. That's why GROHE kitchen faucets deliver more than you expect in every respect. The workmanship, durability, innovation and design will satisfy more than just those with an appreciation for beauty.

# GROHE BAU KITCHEN

Water is used for cooking the world over. We need running water in the kitchen up to 90 times each day. We take it so much for granted that we often don't think of water when we hear the word 'kitchen'. We think of well-filled refrigerators, aromas wafting from the oven and of tables laid ready for dinner. But we forget what works hardest in the kitchen: the kitchen faucet. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That's why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen faucets.

# GROHE ENJOY QUALITY

Every day millions of people start their day with GROHE. Our customers rely on our products to perform throughout the day, every day. They are our toughest critics and our best informants.

Our products are manufactured to withstand a lifetime of daily use. To illustrate our commitment to delivering the ultimate product satisfaction we offer a truly unique guarantee – one that goes far beyond the legislative warranty requirement and significantly exceeds the guarantees offered by our competitors.

GROHE offers a 10-year guarantee on the functional parts that constitute our technological superiority. This includes the ceramic cartridges in our single-lever mixers, thermostatic cartridges, the head parts of our two-handle faucets and certain valves found in our installation systems.

This extended guarantee is a bold statement that underlines our commitment to support our trade partners, professional customers and end users.

- We guarantee the performance of our products for 10 years
- If there is any fault with the operating of any our products, we will repair or replace the product within three working days
- To apply for your guarantee, all you have to do is to complete the GROHE registration form online or by telephone

For details of the GROHE 10-year guarantee please visit [www.grohe.com](http://www.grohe.com)

# GROHE SERVICE AND TECHNICAL SUPPORT

Building a bathroom is always challenging, that is why GROHE offers a dedicated technical support and advice service readily available to answer any questions you may have regarding product installation.

- GROHE-trained service engineers should be able to answer any question you have concerning the installation of our products
- GROHE-trained installation engineers can provide on-site technical assistance or installation support should you require this

To contact our technical support and advice department please call our office (see back page).
